“ The TACL conference is an invaluable resource for any leadership program in developing and learning best practices from other leadership programs throughout the state. The LJAA board members learned ways that we can continuously stay engaged with our alumni through fun activities, increasing fundraising opportunities, to enhancing diverse applicants streams. Furthermore, I had the privilege of gaining new friendships with other leaders within the state. Helping people optimize their full potential was echoed throughout the conference. TACL is a great way that I was able to get recharged as I listened to motivational speakers during the conference. I highly recommend for leadership programs to join TACL and I’m looking forward to our next conference in Paris, Tennessee.

“ I thoroughly enjoyed the 2022 TACL Conference. I met incredible leaders from across the state, participated in some helpful sessions and walked away truly believing that "EVERY room changes when love walks in" as Wade so eloquently put it during the opening keynote. I've always found joy and purpose in serving others and it's comforting to know others exist throughout our state who experience the same motivation in helping their communities identify and train leaders.

“ I have attended several conferences in my professional life but have never experienced what I did at TACL. From the moment we arrived, everyone from the hosts to the attendees were so friendly and welcoming. It was like everyone there was invested in helping every leadership program in the state be as successful as possible. Servant leadership in its truest form. Experiencing breakout sessions where everyone was jumping in to help programs by brainstorming with them on what has worked and what hasn't was inspiring. I could quickly see why this conference has stood the test of time...the people! I was honored to attend and hopeful to attend next year as well.

“ This was my third TACL Conference to be a part of and if you're involved with a leadership program in your area, you need to mark the dates for 2023 on your calendar NOW! Once again I've learned lots of new things to use in both our program days and alumni group. The relationships I'm continuing to grow and build are priceless as well as the new connections I've made. Everyone is a wealth of information and lots of fun.
